Hagaha Isticmaalka — Team Guide

Sharaxaad mid-mid ah oo cad: sidee systemku u shaqeeyaa, yaa maxaa sameeyaa, iyo sida aad ugu jeedin kartid kooxdaada.

Version 2.0 | Login: admin / Admin@123 | Live: http://2.58.82.168:8090

1. Nuxurka (1 daqiiqo)

PharmaCore waa nidaam farmashiye: wuxuu maamulaa dawooyinka, iibka (POS), alaabta, iibsiga (purchases), macaamiisha, iyo warbixinaha — mid kasta wuxuu arkaa kaliya waxa uu fasax u leeyahay (roles & permissions).

> **Fikradda ugu muhiimsan:** Login → Door sidebar → Samee shaqada → Save → Loading dialog → Success dialog.

2. Tusmada (Table of Contents)

1. Login & amniga
2. Qaabka shaashadda (Sidebar / Topbar)
3. Doorka shaqaalaha (Roles)
4. Habka shaqada maalinlaha (Daily flow)
5. Qaybaha mid-mid
6. Save, Loading & Success
7. Administration (Users / Roles / Menus)
8. Tilmaamo kooxda & khaladaad caadi ah

3. Login & amniga

1. Fur browser-ka → geli URL-ka: `http://2.58.82.168:8090`
2. Geli **Username** iyo **Password**.
3. Guji **Login**.
4. Haddii sax tahay, waxaad gelaysaa Dashboard.

Account	Password	Xusuusin
`admin`	`Admin@123`	System Developer — **lama beddeli / lama tirtiri karo**
Users kale	Admin ayaa abuura	Active/Inactive switch ayaa xakameynaya gelitaanka

> **Haddii login fashilmo:** hubi username/password, ama in account-ku yahay *Inactive*. Fariinta casman waxay sheegaysaa khaladka.

4. Qaabka shaashadda

4.1 Sidebar (bidix)

- Liiska modules-ka (Dashboard, POS, Medicines, …).
- Qaar waa **parent menu** — guji si aad u furto submenu.
- **Mid keliya** ayaa furan: mid cusub markaad furto, kii hore wuu xirmayaa.
- Item-ka aad joogto wuxuu noqdaa buluug (active).

4.2 Topbar (kor)

- Search / breadcrumbs
- Theme (light/dark)
- Profile → Logout

5. Yaa maxaa sameeyaa? (Roles)

Sharax kooxdaada sidaan:

Role	Ujeeddo	Qaybaha ugu badan
Super Admin / Developer	Xakameynta nidaamka oo dhan	Users, Roles, Menus, Settings, Audit
Admin	Maamul maalinle	Almost all (maahan permissions.manage qaarkood)
Pharmacist	Iibinta iyo dawooyinka	POS, Medicines, Customers, Inventory view
Cashier	Kaliya iib	POS, Sales, Customers
Store / Inventory Manager	Alaab & iibsi	Inventory, Purchases, Expiry, Suppliers
Accountant	Warbixino	Reports, Sales/Purchases view

> Sidebar-ku wuxuu muujiyaa **kaliya** menus-ka role-kaagu fasax u leeyahay. Haddii qof aan arkin module, waa permission — ma aha bug.

6. Habka shaqada maalinlaha (ugu fiican inaad u sheegto teamka)

1. **Subax:** Hubi Dashboard (sales, low stock, expiry alerts).
2. **Alaab cusub:** Purchases → Create Purchase → Approve → Inventory kor u kacaya.
3. **Iib:** Point of Sale (POS) → dooro dawo → charge → sale la keydiyaa.
4. **Hubin:** Sales History / Reports.
5. **Dhammaad maalin:** Hubi Expiry + low stock, diyaarso purchase cusub haddii loo baahdo.

7. Qaybaha — mid mid

7.1 Dashboard

Sawir guud: iibka, alaabta, digniino. Ma wax lagu beddelo — waa overview.

7.2 Point of Sale (POS)

1. Fur `Point of Sale (POS)` → `New Sale`.
2. Raadi / dooro medicine.
3. Geli quantity.
4. Dhammee iibka (complete sale).
5. Success dialog ayaa soo baxaya — stock ayaa hoos u dhaca.

`Sales History` = liiska iibkii hore (refunds/view).

7.3 Medicines

- **Medicine List** — daawooyinka oo dhan (add / edit / delete).
- **Categories** — noocyada (Antibiotic, Painkiller, ...).

> Ka hor intaadan iibin, medicine waa inuu jiraa + category + stock.

7.4 Inventory

- **Stock Levels** — inta alaab ah ee hadda jirta; waxaad adjust-gareyn kartaa.
- **Expiry Management** — dawooyinka dhacaya / dhacay.

7.5 Purchases (iibsiga laga keeno supplier)

Submenu	URL / macnaha	Maxaad sameysaa
Pending Purchases	`/purchases`	Liiska iibsiga sugaya approval
Create Purchase	`/purchases/create`	Samee order cusub (supplier + medicine + qty + price + batch + expiry)
Incoming Purchases	`/purchases/incoming`	Kuwa la approve-gareeyay / soo galay

> **Rule:** Create → Pending → Approve → Stock-ku wuu kordhaa.

7.6 Partners

- **Customers** — macaamiisha (POS / credit).
- **Suppliers** — shirkadaha aad ka iibsato.

7.7 Reports

Warbixino iib / purchase. Export haddii aad u baahan tahay analysis.

8. Save, Loading & Success (systemka oo dhan)

Markasta oo aad Save / Update / Delete / Approve sameyso:

1. **Loading dialog** — "Saving… / Updating… / Deleting…" (sug).
2. **Success dialog** — checkmark cagaaran + fariin (OK).
3. Haddii qalad dhaco — toast casaan ah ayaa sheegaya fariinta.

> Ha riixin Save laba jeer si degdeg ah inta loading-ku furan yahay.

9. Administration (kaliya maamulayaasha)

9.1 Users

- **Add User** — username, email, password, roles.
- **Edit** — beddel xogta.
- **Active / Inactive switch** — Inactive = login ma shaqeeyo.
- **Reset PW** — password cusub (default: ChangeMe@123).
- **admin (System Developer)** — Locked: lama edit / disable / delete-gareyn karo.

9.2 Roles

- Dooro role → Edit → checkbox permissions.
- System roles (Super Admin, …) lama tirtiri / lama demin karo.
- Active switch roles kale.

9.3 Menus

- Sidebar menus waxay ka yimaadaan database.
- Parent = group (URL madhan), Child = link dhabta ah.
- Order ↑↓ + Parent dropdown.

9.4 Permissions / Audit / Settings

- **Permissions** — liiska fasaxyada technical.
- **Audit Logs** — cida wax beddeshay (security trail).
- **Settings** — goobaha guud ee farmashiyaha.

10. Sida ugu jeedinaysid teamka (script gaaban)

Odhaahdaada:

1. “Mid kasta wuxuu geliyaa account-kiisa — sidebar-ku wuxuu muujiyaa shaqadiisa.”
2. “Cashier / Pharmacist: POS kaliya maalin kasta.”
3. “Store: Purchases + Inventory + Expiry.”
4. “Markaad Save gareyso, sug loading, ka dib success — taasi waa caddayn in xogtu keydsantay.”
5. “Haddii aadan arkin menu, ii soo sheeg — waa role/permission.”
6. “Account-ka admin waa locked developer — ha isku dayin inaad beddesho.”

11. Checklist tababar (30–45 daqiiqo)

#	Task	Qofka	✓
1	Login + Logout	Qof kasta	
2	Create Category + Medicine	Pharmacist / Admin	
3	Create Supplier + Purchase + Approve	Store Manager	
4	POS sale mid ah	Cashier
